Personal Development in Community:

Heart iQ™ Deep Dive Circle 7.-8. July 2018 in Zürich

with Christian Pankhurst, founder of Heart iQ

There is only so much wisdom, clarity and awareness that you can experience on your own. By connecting your heart with others, a collective intelligence emerges that can heal and support you in ways you can not imagine.

Christian, the founder of Heart iQ, has more than 15 years of experience in leading circles and events with hundreds of people. He is masterful in creating a safe, strong and highly transformative group-space in which individual and collective healing can happen with ease and joy. The emerging space is sacred, spiritual and yet grounded and free of dogma.
